### DG Ricerca - 7PQ - PEOPLE

Theme	Call Identifier	Publication Date	Deadline
Marie Curie Reintegration Grants (RG)	<a href="#">FP7-PEOPLE-2010-RG</a>	2009-10-09	2010-09-07
Marie Curie Intra-European Fellowships for Career Development (IEF)	<a href="#">FP7-PEOPLE-2010-IEF</a>	2010-03-17	2010-08-17
Marie Curie International Incoming Fellowships (IIF)	<a href="#">FP7-PEOPLE-2010-IIF</a>	2010-03-17	2010-08-17
Marie Curie International Outgoing Fellowships for Career Development (IOF)	<a href="#">FP7-PEOPLE-2010-IOF</a>	2010-03-17	2010-08-17
Marie Curie Initial Training Networks 2011 (ITN)	<a href="#">FP7-PEOPLE-2011-ITN</a>	2010-07-20	2011-01-26
Marie Curie Industry-Academia Partnerships and Pathways (IAPP)	<a href="#">FP7-PEOPLE-2011-IAPP</a>	2010-07-20	2010-12-07

**Reintegration Grants (RG)** aims to reinforce the attractiveness of Europe by encouraging European researchers who have carried out research outside Europe for at least three years. The scheme aims to reintegrate the researchers to a Member State or an Associated country in order to contribute to European research and transfer the knowledge they have acquired in a third country, by offering them the opportunity to capitalise on their experience in Europe.

**Marie Curie International Incoming Fellowships (IEF)** funding is provided for advanced training and career development. This may include the acquisition of new and/or complementary skills, and transnational mobility. The project is based on a personal career development programme agreed between the researcher and the supervisor at the host organisation. Financial support is provided for a period of 12-24 months (full-time equivalent), for individual projects presented by experienced researchers from Member States or Associated Countries in liaison with a host organisation from a Member State or Associated Country.

**Marie Curie International Incoming Fellowships (IIF)** funding is provided for a research project which will transfer knowledge into your host organisation and building or enhancing collaborations between Europe and the rest of the world. The research project will also allow you to advance your career. Financial support is provided for 12-24 months (full-time equivalent).

Your IIF may also cover a return phase of up to one year. This will be spent back in your country of origin, applying the experience that you have gained. To qualify for a return phase, you must be from one of the International Cooperation Partner Countries.

**Marie Curie International Outgoing Fellowships for Career Development (IOF)** proposals are welcomed from all areas of scientific and technological research that are of interest to the EU. But there is one exception: research areas covered by the EURATOM Treaty cannot be funded.

IOFs fund advanced training. In particular, they include a salary for the researcher and a contribution to research-related costs. Financial support can be given for up to 3 years in all. This includes an initial outgoing phase of 1-2 years in a Third Country followed by a mandatory reintegration phase of 1 year. In other words, you will be committing yourself to return to an EU Member State or an Associated Country.

### **Marie Curie International Initial Training Networks (ITN)**

Marie Curie Initial Training Networks offer early-stage researchers the opportunity to improve their research skills, join established research teams and enhance their career prospects. ITN proposals are selected in an open competition.

### **Marie Curie International Industry-Academia Partnerships and Pathways (IAPP)**

The Industry-Academia Partnerships & Pathways (IAPP) is a Marie Curie Action that seeks to open and foster cooperation between public research organizations and private commercial enterprises, in particular SMEs, based on longer term cooperation programmes, for increasing knowledge-sharing and mutual understanding in both industrial and academic sectors. This cooperation is implemented between at least two organizations (one from public sector and one from private sector), from at least two different countries. The duration of a project is between three and four years.
