OECI 2015

Oncology Days

PORTO 2015
GENERAL ASSEMBLY, SCIENTIFIC CONFERENCES AND RELATED EVENTS

Instituto Português de Oncologia do Porto (IPO-Porto)
June 22nd-24th
Welcome to the OECI Oncology Days 2015

For the third time, the Directors of the European Cancer Centres will convene in Portugal, a country which, since the OECI’s foundation, has shown an extraordinary interest in our Organisation, as witnessed by the participation of all the cancer centres of the “Instituto Português de Oncologia do Porto FG, EPE” network in the OECI Accreditation and Designation Programme.

Each participating centre has received the OECI Certification and I hope that the Portuguese example, as in Italy, will be followed by other countries.

In this first year of my Presidency, I have been working on consolidating the OECI mandate and how our organisation can better respond to the needs of a rapidly changing society, patient needs, and those of our members. In recent years, the fast paced progress of science and technology has brought radical change to the very structure of our institutions, in order to meet the needs that personalised medicine now requires. There is an increasing need to work together to speed up the translation process, to give all our patients access to the best care and to reduce the unbearable burden of applied research that requires an increasing amount of human and financial investment.

The OECI membership should be seen as an investment that will increasingly become a two-way process in which the Institutes play a proactive and collaborative role. I am convinced that active involvement of the cancer institutes is our trump card if we want to qualify as THE European network of cancer institutions, formally recognized by the European Union. Let us not forget that the OECI is an inclusive Organisation and our wealth is represented by the diversities that exist amongst our member institutes.

The 2015 OECI Oncology Days programme sums up concisely how the process of OECI accreditation and designation, 5 years since the release of the first certification, helps to improve the organisational system, to secure the quality of our member institutes and to guarantee appropriate care to our patients, through multidisciplinarity and comprehensiveness. Personalised medicine will be challenging the current status quo in many of the processes in our cancer centres. We decided, therefore, to integrate those aspects and their impacts in the scientific session.

The 2015 Oncology Days will be the 37th time that the Directors of European cancer centres meet. A solid example of the efforts made by the OECI and its members in supporting the role of a European coordinator, in order to reduce fragmentation, to improve the quality of care and research and to evaluate the cost-benefits linked with the application of new therapeutics, thereby avoiding unnecessary care approaches.

We thank the local Organisers and in particular the “Instituto Português de Oncologia do Porto FG, EPE”, which has made this event possible.
Dear Colleagues,

It is with enormous honor that we receive all of you in our institution and city.

The Instituto Português de Oncologia do Porto is a standalone cancer Centre strategically committed with quality care and patient safety issues. The affiliation in OECI was very important in the past and we believe that in the future it will be the forum of excellence to represent cancer deliver organization in the European Community.

The crossroads of investigation and integration in care are always present in our mind and we hope that this meeting in Porto can strengthen the OECI vision for comprehensiveness.

We are waiting for all of you and everything will be done to result in a fruitful and happy journey in this hospitable city.

Dr. Laranja Pontes
IPO-Porto President
Introduction to the OECI

The OECI is a non-governmental Organisation founded in Vienna, in 1979.

The primary objectives of its 70 Members are to reduce fragmentation and to give all European cancer patients the possibility of receiving the best available care. The OECI Members have established themselves in the innovation frontline by tailoring solutions to the individual patient, by gaining in efficiency and efficacy and with the potential to transform the way healthcare is delivered today.

To better achieve its goals, the Organisation works in close collaboration with the European Cancer Patients Coalition. The OECI goals are achieved by promoting and strengthening the concept of Comprehensive Cancer Centres in Europe in order to improve quality in cancer care and translational research, as well as from an organisational viewpoint. In an effort to efficiently contribute towards an increase in the quality of care, 45% of all OECI Members are already participating in the OECI Accreditation/Designation programme.

In 2016, some of the already certified Centres will be re-visited in order to confirm their Designation status, according to the revised quality standards for comprehensive and multidisciplinary cancer care in European cancer centres, as published in the Second Edition of the OECI Accreditation and Designation User Manual. So far, 29 European wide, comprehensive and clinical cancer centres have taken part in the OECI Accreditation & Designation programme.

The OECI interacts with its members in the definition of tasks of international and common interest. The common goal is to facilitate member participation in European projects and programmes, to support training activities on forefront topics, which provides a sound basis for accelerated development of expertise and future collaborative work. This in turn attracts professionals and officers from across disciplines and ultimately underlines the value of multidisciplinary actions.

Giving the crucial role to pathology departments in oncology and in lieu of the expected “influx” of new markers and diagnostics, the OECI acts in close cooperation with the European Association for Cancer Research and the European Society of Pathology, in order to better disseminate the innovation process amongst its members and abroad. The EACR-OECI training course series in Luxembourg on “Precise Medicine”, and on “Molecular Pathology Approach to Cancer” in Amsterdam, are just two examples of the OECI efforts to promote the dissemination of innovation.

Managerial support is mainly organised through the President’s Office and the Central Office in Brussels, alongside the Liaison and Director’s Office in Genoa. You can find more information about the Organisation at www.oeci.eu <http://www.oeci.eu> . The dissemination of the OECI activities, reports, proceedings are also publicized through ecancermedicalscience, the Official OECI e-Journal at www.ecancer.org <http://www.ecancer.org>.

DESCRIPTION OF THE INSTITUTE
The Instituto Português de Oncologia do Porto Francisco Gentil (IPO-Porto) opened in April 1974, as a unit of the Public Sector and became a Corporate Public Entity with an annual service contract with the Minister of Health. Moreover, it is the top line reference unit in oncology care in the North of Portugal, to where all the most complex cases are transferred to, with about 3.7 million of habitants to serve.

MISSION
The main mission is to render high quality, humanist and efficient oncology health care to the population. It is also part of the mission to develop research, training and teaching activities within oncology.

GENERAL ORGANIZATIONAL PRINCIPLES
1. The oncologic patient is the centre around which all care activity is build. For this reason all human and technical means available must be organized in a way as to give personalized, homogenous and holistic care.
2. Multidisciplinarity is assumed as the approach of the neoplastic disease, capable of offering an integrated and sequential treatment, in accordance with the highest scientific standards.
3. To achieve these goals, multidisciplinary units are created for each pathology, named Pathology Clinics, as the basis of the whole care structure.
QUALITY
It is the first Comprehensive Cancer Centre in Europe accredited by OECI (Organisation of European Cancer Institutes) since 2011, and Jacie for transplantation and cell therapy.

RESEARCH
Basic Research; Translational Research; Clinical Research; Epidemiologic Research;
The Portuguese Oncology Institute - Porto Research Center (CHPOP), hosted by IPO-Porto, is recognized by the Portuguese Science Foundation as an R&D unit. IPO-Porto has a consortium with IPATIMUP, which together comprises 15 translational research groups and a Clinical Trials Unit. The IPO-Porto/IPATIMUP consortium ensures a significant critical mass of investigators that allows fulfillment of the strategic institutional vision of having research as an integral part of patient care. The long-term objective of the IPO-Porto/IPATIMUP consortium is the understanding of the pathobiological mechanisms involved in carcinogenesis and in therapy response/resistance, which ultimately will help improve cancer prevention and/or treatment.
The Clinical Research Unit, which aims to collaborate in the development of more efficient therapies of cancer by participating in multicentric, carefully designed clinical trials. The unit supports all clinical departments of IPO-Porto in their participation in investigator initiated or international clinical trials, namely those promoted by EORTC, collaborative groups, or the pharmaceutical industry.

TEACHING
The main goal of the Department of Education (EPOP) is to promote continuous education in Oncology, providing state of the art transfer of knowledge to all professionals of IPO-Porto, as well as affiliated institutions and students or professionals from partner academic or health institutions. The department provides resources and facilities (+ 2.000m2) according to the educational needs identified every year which are materialized as the institutional continuous education plan.
All issues in oncology: Under-graduate Medical Training; Post-graduate Medical Training; Training for other Health Care Professionals; Training for the community.
The OECI 2015 Oncology Days

June 22nd Morning
• Extended Board meeting

June 22nd - 23rd
• OECI Pathology Day: Tumour Heterogeneity and Next Generation sequencing - Morphology and Technology

June 22nd Afternoon Session
• Introduction and Clonal Heterogeneity

June 23rd Morning Session
• Heterogeneity and Phenotypic Plasticity
• Pharma Round Table

June 23rd Afternoon Session
• Round Table: Tumour heterogeneity: common aspects and diversities
• Round Table: Tumour heterogeneity: Clinical biobanks

June 22nd Afternoon
• Interim Meeting Bench-Can Project

June 23rd
• OECI Core Activities Sessions
  Morning
  Session 1: Role and organisation of a European Cancer Network: debating comprehensiveness
  Session 2: The pillars for certification and designation of comprehensiveness
  Afternoon
  Session 3: Partnership with industry
  Session 4: Health Economics

June 24th 8,30-13,00
• OECI General Assembly 2015

Social event
June 23rd Evening
• OECI 2015 Party Dinner
  Saint John’s Day (Porto traditional celebration)
  Dress code - casual
  (restricted to OECI members)

Sightseeing Tour

1) Porto | Régua | Barca d’Alva | Porto 2 days)

**FIRST DAY**
09h00
Boarding at Estiva or Ribeira wharf – Porto.
Departure bound for the city of Peso da Régua.
Breakfast on board.
Passage by Crestuma/Lever dam.
Appetizer served on board.
Lunch served on board.
Passage by the Carrapatelo dam.
16h30
Arrival at the city of Peso da Régua.
Dinner and overnight.

**SECOND DAY**
Breakfast
Return by train, on desired time.
End of services.

2) Porto - Régua - Porto 1 day
09h00
Boarding at Estiva or Ribeira wharf – Porto.
Departure bound for the city of Peso da Régua.
Breakfast on board.
Passage by Crestuma/Lever dam.
Appetizer served on board.
Lunch served on board.
Passage by the Carrapatelo dam.
16h30
Scheduled arrival at the city of Peso da Régua.
18h03
Departure by train bound for the city of Porto.
20h30
Scheduled arrival at the city of Porto.
End of services.
3) Porto · 6 Bridges Cruises
There are six magnificent bridges that unite the two banks of the River Douro. Have fun on a Cruise of the Six Bridges and get to know them all - D. Luis, Infante, Dona Maria, S. João, Arrabida and Freixo - the most ancient to the most modern.

Zona Histórica da Ribeira
– Igreja de S. Francisco
– Palácio da Bolsa
– Alfandega do Porto
– Museu do Vinho do Porto
– Igreja de Massarelos
– Ponte da Arrábida
– Foz do Douro
– Afurada (Zona Piscatória)
– Palácio de Cristal
– Museu do Carro Eléctrico
– Cais de Gaia
– Caves do Vinho do Porto
– Mosteiro da Serra do Pilar

4) Panoramic Bus - Yellow Bus
“With this tour we will take you to know some of the most beautiful places in the cities of Porto, Vila Nova de Gaia and Matosinhos on a panoramic bus. Discover the history and tradition, the contemporary art and architecture, the riverside and the city’s excellent cuisine. Go along Porto’s seaside and get to know its bridges while enjoying the beauty of the beaches and its breathtaking landscapes. You can also visit the three castles that protected the Portuguese coast for centuries and learn more about that period of time.”

This is an easy and complete way to know Porto and with this program you will be able to know all the main monuments and landscapes of the city.

Audio description available in English, Portuguese, French, Spanish, Italian, German, Dutch, Russian, Japanese and Portuguese (Brazil).
Possibility of entering and exiting the bus several times along the route.
Every day.

General Information about Porto

TRADITION AND MODERNITY
Porto is one of the oldest cities of the country, and, as such, its path is sinuous and picturesque. It is a unique experience to stroll through its streets and feel the pulse of the city. Take the tram to the mouth of the river Douro and get to know the excellent beaches and the outdoor experiencing churches and monuments and encounter the non-conformist modernism of the new contemporary buildings of architects like Siza Vieira, Souto Moura or Rem Koolhaas.

ARCHITECTURAL AND HISTORICAL HERITAGE A UNIQUE LEGACY
Board on a medieval journey and pound the historical centre, passing by the Cathedral or the Clérigos Tower. By tram or on foot, go down to the peer and experience the feeling of making a cruise on a Rabelo boat, which sail on the river Douro. Take the opportunity to admire the six bridges of the city, visit the Port Wine cellars and taste this characteristic wine in a cozy and refined atmosphere.
Visit the Casa do Infante Museum, The São Francisco Church, the Palácio da Bolsa, the pleasant riverfront and the well preserved Ribeira and Miragaia streets. But same wise, admire the well present modernity in the Casa da Música and Serralves Museum of Contemporary Art.

URBAN ENTERTAINMENT. SENSATIONS WITH THE OCEAN AND THE RIVER AS BACKGROUND
Besides history and culture, Porto is also leisure, fun and night life. The famous streets around the Galeria de Paris Street, the cafés and its terraces, the Miguel Bombarda area or the commercial Sta Catarina Street are reference points in arts, in culture, but also in leisure and shopping.
Find out what Porto has best to offer and enjoy the numerous outdoor cafés by the sea and the excellent City Park with seafront.

A DESTINATION OF CONGRESSES AND EVENTS
In Porto and in the North of Portugal one finds the ideal conditions to host business and scientific events in emblematic and well-equipped buildings. To host international congresses and conferences you can choose congress centres of various competencies and different types of hotels: chain, charm, design or trendy. These units are complemented by a vast support services, always with the guarantee of a skilled experience and a rigorous professionalism. For a social event of more creative matter, it is also the ideal destination due to the huge variety of available gala venues: castles, manor houses, palaces, restaurants, beach bars, casinos, museums and a lot more!
In Porto and in the North of Portugal, it is always possible to transform a simple transfer into an event and make it unforgettable, on board of a boat, tram or train.

AIRPORT AND TRANSPORTATION - AEROPORTO SÁ CARNEIRO
Porto Airport is about 11 km from the centre of Porto, in one of the country’s most important industrial and trading areas. Nowadays, 15 airlines are operating regularly at this airport with flights to 65 destinations. From the airport you can reach Porto by bus, táxi or subway.

CLIMATE
Porto has a warm mediterranean/dry-summer subtropical climate that is mild with dry, warm summers and moderate seasonality. Regions with this subtype of the Mediterranean climate closely resemble an oceanic climate with generally cloudier and damper conditions than typical Mediterranean climates tho they are still susceptible to fire in the warm dry summer months.

CURRENCY
The local currency is Euro.

EMERGENCY NUMBER
The european emergency number is 112.
