

OEICI THE
EUROPEAN
CANCER LIAISON
NETWORK

www.oeci-eeig.org

Established in 1977 to promote greater cooperation among European cancer centres and institutes in the field of cancer collaborative research, the «Organisation of European Cancer Institutes» held its first General Assembly in 1980. Its founders designed a structure aimed at promoting efficient partnership across Europe, notwithstanding its linguistic barriers and traditional research heterogeneity. In keeping with the ongoing European developments, in 2005 the Organisation was remodelled into **OEICI-EEIG - Organisation of European Cancer Institutes, European Economic Interest Grouping**.

OEICI is a continuously growing and developing network, presently regrouping 67 cancer centres across Europe. OEICI is dynamically working in crosscut expertise projects organised mainly within Working Groups. Currently, there are four main Working Groups financed through membership fees and also supported by external funding bodies.

Working Groups and Chairpersons

Accreditation and Designation WG:

Mahasti Saghatchian and Wim Van Harten

Education WG: Angelo Paradiso

Guidelines WG and Start Project:

Béatrice Fervers and Lisa Licitra

Pathobiology and Molecular Pathobiology WG:

Peter Riegman and Antonio Lombart-Bosch

The Current OEICI-EEIG Board

President: Marco A. Pierotti - Milan, Italy

Vice President: Wim Van Harten - Amsterdam, The Netherlands

Former President: Ulrik Ringborg - Stockholm, Sweden

Executive Secretary: Guy Storme - Brussels, Belgium

Elected Member: Julio Celis - Copenhagen, Denmark

Elected Member: Michael Baumann - Hamburg, Germany

Special Assistant to the President: Claudio Lombardo - Genoa, Italy
