

On September 30 – October 1, the **ALTHEA Kick-Off Meeting** took place at the European Institute of Oncology in Milan. The project will tackle mental health of cancer patients and their families and will develop digital solution for better care.

[OECI](#) is excited about what we will achieve together going forward. We thank **Professor Gabriella Pravettoni**, the PI of the project, and her team, to give the possibility to this talented and committed group to work together to reach successfully the ambitious objectives of the project.

OECI will do its best contributing with its experience also thanks to the collaboration of its Working Group on Enhancing Patients Involvement in Cancer Care and Research "[EPIC-CARE WG](#)", chaired by Dr. Delia Nicoara of the "Prof. Dr. Ion Chiricuta" Institute of Oncology of Cluj – Romania.
