Description of clinical activity

Previous Posts:

House officer 1993-1997

Registrar /Senior registrar 1997-2005

Consultant 2005-

Deputy Department Head 2009-

Director of International Relations 2010-2013

Management of all international collaboration of the Institute including bilateral, multilateral and specific EU framework projects. Since 2010 also been appointed to be the LEAR (legally appointed representative) of the Institute in EU projects.

Clinical director 2013-

At this position the everyday running and management of the clinical activity of our comprehensive cancer centre belongs to my main duty.

Description of educational activity

- Since 1996 I give lectures regularly on the postgraduate courses of radiotherapy at the Semmelweis University, Budapest. I also take part in the practical postgraduate training. From 2007 I participate in the gradual medical education at the University of Pécs.
- Between 2000 and 2004 I participated in the theoretical and practical training on medical emergency in nuclear and radiological accidents.
- Between 2010-2016 I was the chair of Semmelweis University postgraduate program in radiation oncology now I serve as the secretary of the program.

Description of scientific activity

Beside participation in clinical trials my main focus of cancer research is radiation sensitivity/radiation sensitization. I carried out basic research and have skills in laboratory methods such handling cell cultures, performing in vitro and in vivo (animal) experiments.

Involvement in clinical trials

As a principal investigator I organized an institutional academic phase II-III. trial between 1996 and 2000. I participated in three international multicentric trials as investigator and as co-principal investigator. Currently I am a principal investigator of one phase III trial. Last ICH-GCP training completed in 2013.

International relations

Work Package of National Cancer Control Plans of the Eurocan+Plus project.

I coordinate number of international projects of the Institute including projects in the EU framework programs.

Member of the Accreditation Board of the OECI (Organisation of European Cancer Institutes)

Member of the Board of OECI (Organisation of European Cancer Institutes)

CanCon WP 5

Vice chair of the TRANSCAN ERA-NET consortium (2012-2014) Budapest, 21th of April, 2017.
